

# COMPANY PROFILE

Meisei Trade Co.,Ltd.

[www.meiseitrade.com](http://www.meiseitrade.com)

# About us

We specialize in the development and manufacturing of Mosquito repellent Patch, Breath Easy Patch, Vapor Patch, Soothing Vapor Patch, Mask Aroma Patch, Freshener Patch, Nasal Decongestion Patch and so on.

We have researched and developed patch material and spray oil machine by ourselves. We can adapt patch material spec and spray oil machine spec to any suitable application for the products and customer needs.

We have been providing OEM/ODM service with advanced equipment and production lines, professional designers and printing partners. We can customize a large variety of patches under customer formulation and branding.

We also supply customized patch artwork design materials and Spray Oil Machine for all kinds of patch production. We have made the production easier with good quality even if you don't have production experience.

Products

## Nonwoven Patch Material

Using production processes with the Japan production standard. Our material does not use the 13 harmful VOCs regulated by the Japanese Ministry of Health, Labor & Welfare. The Nonwoven fabric is designed to be a good material for absorbing the essential oils or fragrances. You can choose the type of adhesive for adhering to cotton clothes, synthetic clothes or direct skin.

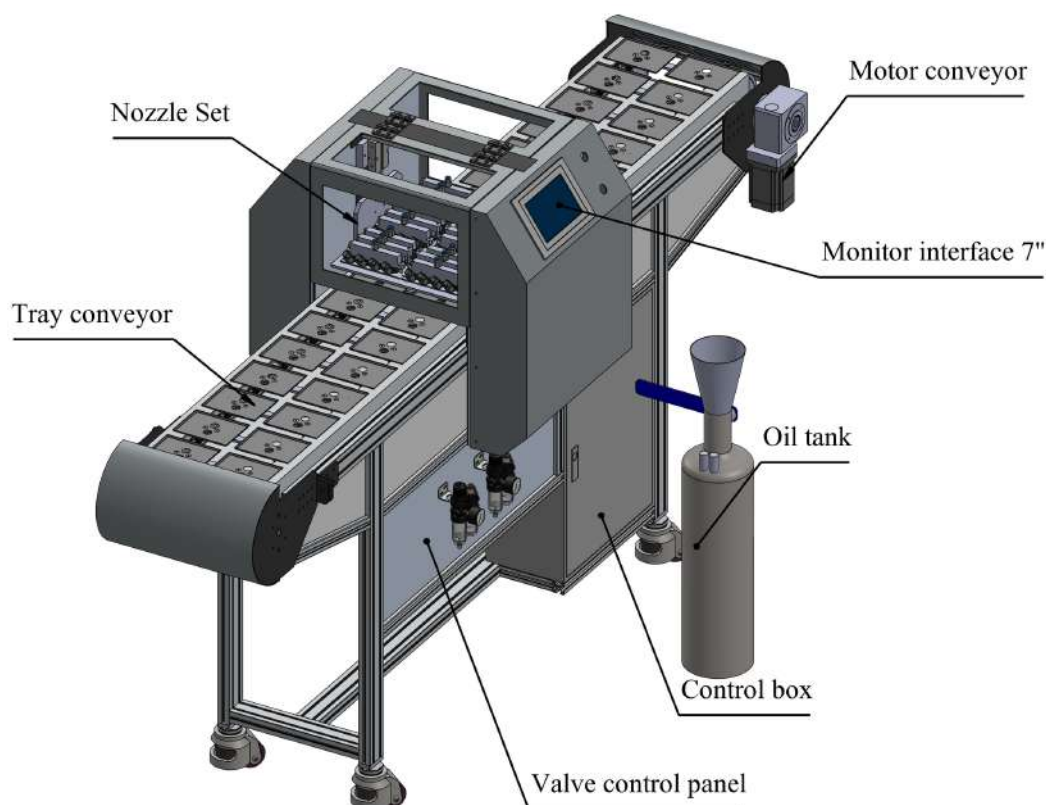

# Spray Oil Machine and production equipment

We supply the Spray Oil Machine, provide production equipment at an affordable price, comprehensive care services, the installation of the machine and training.

The Spray Oil Machine comes standard with stainless steel and aluminum structure, easy-to-clean contact parts, design of dual-tray conveyor system and variable speed adjustments for flexibility at work. It features one spray station equipped with six nozzle sets spraying oils or fragrances 6 sheets per time and a user-friendly touch screen display with features like job memory and patch counting.

The Spray Oil Machine is adaptable the plate and nozzle set in the same design as patch design. Easy to work as putting the patch on plate and let the nozzle spraying oils or fragrances on patch. Then, packing the patch in the pouch and sealing the pouch.
